The new 911 Carrera
Technology & Production Workshop
Plant Quality
The new 911 Carrera – Innovative electronics platform

- 100Mbit/s Ethernet
- Advances in electronics architecture
- NightVision
- WET mode
- Lightweight design
  - Innovative battery technology
- 10.9” centre display
  - New display and controls concept
- SurroundView
  - Driver assistance systems
- ParkAssistent

+13% Number of control devices
The new 911 Carrera – Increasing complexity

- 400 plug connectors
- 80 controllers
- 11,000 diagnosis functions
- 17,000 monitored functions
- 75 code containers
- 2,000 m of cable harness
